BUTTERFLIES

Its that time of year again! Toward the end of the month of April, each of the groups will begin to hatch butterflies in their classrooms. The plan is for each class to watch the different stages of development, from larva to butterfly. When all of the butterflies are hatched and become strong enough, the entire school will meet outside and release the butterflies into the natural setting. It will be a colorful sight to watch as they flutter away to find a home.

APRIL IS NATIONAL HUMOR MONTH

The average five-year-old laughs 400 times a day, while the average adult laughs just 15 times a day. Try to laugh a little more this month!

We hope that the frigid temperatures are behind us so we can spend time outdoors observing signs of spring. Some of the goals we will focus on are: exploring the natural processes of growing, using scientific tools as props in play, changing and adapting to the environment, appreciating and respecting the work of others, and learning to tolerate a variety of sensory input. We will have a busy month!

Lost & Found

Our lost and found bins are located under our fish tank in the front hallway. We have accumulated a lot of hats, mittens and gloves over the winter. Please be sure to check it out.

Front Door & Gate

Please be sure to immediately close the front door behind you. This will ensure that visitors coming through the door are noticed by our staff through the cameras. Also, we are asking that you close the front hallway gate behind you when entering and leaving Breezy Knoll. Thank you!
